## Keeping you informed about pathology testing

Sonic Edu is the centralised app for all our educational information, and has now been expanded to include the Sonic Skin Pathology Handbook.

### Sonic Pathology Handbook

Written by 65 Sonic Healthcare pathologists, the Sonic Pathology Handbook provides information on more than 900 pathology topics, reflecting our deep, collective knowledge across all areas of pathology, including specific, high-level expertise in a broad range of subspecialties.

Importantly, the handbook has been written by Australian pathologists for Australian doctors, making it a unique resource within our medical community. The digital version contains up-to-date information, giving you immediate access to the latest test information and position statements.

### Sonic Skin Pathology Handbook

The Sonic Skin Pathology Handbook combines a range of detailed, practical and contemporary papers relating to the pathology, diagnosis and management of a selection of skin conditions. It includes contributions from pathologists with expertise in histopathology, genetics, microbiology, immunology, haematology and biochemistry, who often work together to provide valuable assistance in the management of your patient.

Under the editorship of Dr Vicki Howard, this handbook is the result of a nationwide collaboration among Sonic Healthcare pathologists, including colleagues who are nationally and internationally recognised experts in their fields.

# Seamless integration with Sonic Dx

Sonic Edu links seamlessly with Sonic Dx (our online results app).

To find out more information about a test or condition listed in a Sonic Dx result, simply long-press (press and hold) a word in the electronic test result, and the app will automatically switch to a list of suitable topics in the handbook (users must be logged in to both apps simultaneously).

## How to access Sonic Edu

Desktop

Go to [www.sonicedu.com.au](http://www.sonicedu.com.au)

iPhone/iPad

Search for Sonic Edu

Android

Search for Sonic Edu

All users need to register at [www.sonicedu.com.au/register](http://www.sonicedu.com.au/register)
